SKILLS

Graphic Design / Photoshop
I studied graphic design at UNC Charlotte. I have extensive experience with the Adobe Creative Suite.

HTML / CSS / Javascript
I have over 10 years experience with HTML, CSS and Javascript. I currently focus on responsive, mobile first design.

Project Management
I gathered requirements and coordinated the implementation of several web applications while working at Lowe's.

Java / PHP
I know several coding languages. I've had many years experience with PHP and Java. Most recently I've started learning mobile app design.

UX Design / Wireframes
I received UX Design certification through Springboard in 2016. I worked on wireframes and mockups while at Lowe's and UNC Charlotte.

Node.js / Gulp
I am new to Node.js and Gulp but am taking courses to learn ways to automate tasks and streamline the web development process.

WORK EXPERIENCE

UNC Charlotte
Drupal Web Design, Current Job

Build websites for the university using the Drupal content management system. Provide issue resolution and end user support for any Drupal issues.

Lowe's Home Improvement
Business Analyst / Programmer, 2012- 2015

Coded digital catalogs for custom order items and progressed to the role of business analyst for renovation management technical systems.

Husqvarna
Digital Marketing Specialist, 2015 - 2017

Managed consumer emails and analyzed end user engagement. Updated company website to improve SEO and drive site visitors to our dealer locator.

Continental Tire
Quality Assurance Testing, 2010 - 2012

Provided QA Testing for the e-commerce website. Updated html/css and migrated content into a content management system.

EDUCATION
